

PDF/UA examples, Accessible tabulars

Links to Tagged PDFs having Accessible tables

by Ross Moore

July 2022

1. LaTeX source is processed to build a Tagged PDF valid for the PDF/UA formats
2. the resulting PDF is exported to HTML using [ngPDF](#)
3. the HTML page, and any images, is then downloaded and copied to this location.

Accessible Tables:

- HTML: [real-world examples](#) and the original [PDF version](#) used to create it.
- HTML: [LaTeX Companion 2nd ed.](#) and the [original PDF version](#) used to create it.

The features of these PDF and HTML documents will be discussed at the TUG 2022 meeting, in Ross Moore's presentation.
